CSBI has made a huge impact on my life. The work experience I gained through this program set me apart from other students. As a CSBI intern, a foundation was laid which set the framework for college level internships with other major corporations. CSBI gave me the tools to achieve in the business world early on. I am now a 2008 Magna Cum Laude B.B.A. graduate from Howard University. I can wholeheartedly state that CSBI played an integral role in my small measure of success. I am extremely grateful to this program.

~ Jamel Franklin
'02 & '03 Intern

Participation in the program gives students a chance to experience a summer internship that can help further their careers after high school. Students are given the opportunity to work in the Chicago business community, where they are able to earn money and save for college. In recent years, CSBI interns have been offered internships as runners at the Board of Trade and general office assistants, among others. The students are able to better make career choices from their work experiences. Working in a professional environment gives the students a sense of what working will be like after college: the challenges, the responsibilities, and the feeling of accomplishment from a job well done.

preparing today's students to become tomorrow's professionals

BENEFITS TO STUDENTS

- Paid summer position
- Earn a competitive weekly salary
- Attend weekly seminars and workshops
- Opportunity to network and establish business contacts
- Obtain information about the college admissions process
- Eligible to receive monetary scholarships awarded to top-performing students at the end of the program
